The above-identified application became abandoned for failure to file a timely and proper reply to a notice or action by the United States Patent and Trademark Office. The date of abandonment is the day after the expiration date of the period set for reply in the office notice or action plus an extensions of time actually obtained.

APPLICANT HEREBY PETITIONS FOR REVIVAL OF THIS APPLICATION

NOTE: A grantable petition requires the following items:

- (1) Petition fee;
- (2) Reply and/or issue fee;
- (3) Terminal disclaimer with disclaimer fee - required for all utility and plant applications filed before June 8, 1995; and for all design applications; and
- (4) Statement that the entire delay was unintentional.

1. Petition fee

☒ Small entity-fee \$ 750.00 (37 CFR 1.17(m)). Applicant claims small entity status. See 37 CFR 1.27.

☐ Other than small entity - fee \$ N/A (37 CFR 1.17(m))

2. Reply and/or fee

A. The reply and/or fee to the above-noted Office action in the form of \$15.00 Bal. due, plus CIP-APPLICATION (identify type of reply):

☐ has been filed previously on _____
☒ is enclosed herewith. 09/14/2006 TBESHAH1 00000010 10046000

B. The issue fee and publication fee (if applicable) of \$ 81 FC:2453
82 FC:2061

☐ has been paid previously on _____
☐ is enclosed herewith. 750.00 OP
40.00 OP
540.00 OP

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

3. Terminal disclaimer with disclaimer fee

☒ Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.

☐ A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ N/A for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

4. STATEMENT: The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Dear Ms. Delora Dillard,

TECHNOLOGY CENTER R3700

This letter serves to notify usPTO as to my presently preparing a Response to my above identified Pat. Application, which unintentionally went Abandoned owing some early corporate-organization procedures, which unfortunately became bogged-down in mismanagement, whereby dereliction of duties caused the usPTO's Action-letter not being received by me when the corporation went defunct and i had relocated my Dental-office, --thereby resulting in loss of communication with the usPTO (apparently the new tenants merely disposed of the usPTO-mail). Thus I have learned of my Pat. Application's Abandonment-status telephonically more recently via most helpful usPTO personel (particularly yourself); --and i grievously apologize for this past confusion.

Having personally been in production & installation of my 'UniPlant_™ Implant-sys. employing 'one or more' -Lobes as stated in my Pat. Application, but for simplicity i initially tried just a "two-Lobed/internal-connection" upon inception of filing my above said Pat. Application upon which it is based, -so i was involved in on-going refinements, and discovered that in order to make my oral-implant installations more precise, i only needed to make my smooth twin-Lobed models into a generic-variant five to seven lobed design giving more azimuth orientation positions. Owing this design-choice was already mentioned in my Pat. Application, i felt secure in having a mid-2003 meeting here at the nearby San Diego-home of a 15+year trusted acquaintance Eric Sjogren- Mkt.-VP for LifeCore/BioMedical Corp., -to whom i thus revealed my improved iteration. Thoughtfully studying my drawing of the evolving six-lobed version, Eric said- he was very impressed with my UniPlant's unique configuration and advantages; --whereupon we discussed his interest in possibly joining a cooperative-alliance toward its production, -as he understood i much needed a key-person well versed in the specialized marketing of dental-implants.

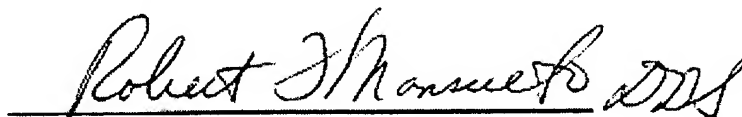

Subsequently however, it has come to my attention that the same company Eric Sjogren

works for, has much more recently on 21/Sept./2005 publicly-introduced what they refer to as their LifeCore-"Prima" Implant-sys., --employing what they extol on the cover of their brochure as "a revolutionary-new six-lobed/internal-connection"; ---albeit shockingly, -an exact copy of my six-Lobed invention version i had confidentially revealed to Mr. Sjogren some 2-years earlier!!! Moreover, it turns out that theirs is being produced by the very same EuroMachineCorp. that has made my implants since around Aug.-2003!!

Although i understand one cannot stop such plagiarizing of one's invention until a patent is officially granted, there nevertheless remains a potential interference-situation going on here. The EuroMachineCorp. is a well run company which has been very cooperative in making my UniPlant/Dental-implants exactly as my Engineering-dept. has specified, --thus i do not believe they really understood that a conflict-of-interest or seeming collusion was occurring here; -as they are essentially a quality-subcontractor primarily interested in producing anyone's precision-titanium/implant-parts wholesale by the millions!

My intent in contacting the usPTO at this time, is to alert you of this above occurrence, and apprise you as to my earnest intention to provide the usPTO the belated Action-response (via Petition procedure), along with a CIP-application (and requisite Fees), wherein we are deleting some of our earlier 2000-filed (via Provisional) iterations, so as to thereby more aptly target and elaborate upon the basic UniPlant™ embodiment already disclosed in my above identified filing. This will get us back on-track via a clearly and concisely presented CIP/Pat.Application; --yet it is believed the usPTO needed to know of this plagiarizing by LifeCore/BioMedical-Corp. headquartered at Chaska,MN, whereby usPTO can examine accordingly any naturally very similar Pat.Application which may have already arrived in your Docket-file for Examination!

Thank you for your indulgence in this matter; and for your monitoring convenience, -it is expected that my reinstating Pat.Application will arrive at the PTO during the month of March-2006...

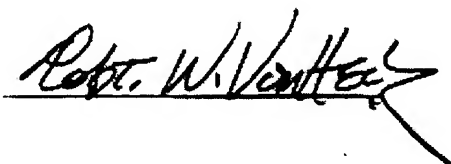

Sincerely Yours, -Dr. Robert F. Mansueto -DDS (Implant-specialist)

for HIGH-STRENGTH DENTAL IMPLANT WITH CONE-LOCKING
AND SWAGING ABUTMENT
Our Ref. No.: 086302-0303602

Dear Mr. Mansueto:

Pursuant to your telephone request of July 15, 2005, enclosed please find a *Power of Attorney and Correspondence Address Indication Form*. Please note that the power of attorney form must be signed and dated by yourself since you are the first-named inventor of the application.

Once you have signed the power of attorney form, it must be filed with the United States Patent & Trademark Office. We note that once the power of attorney has been filed, it revokes all previous powers of attorney for the above-identified application.

Please do not hesitate to contact me if you have any questions or require assistance.

Very truly yours,

John R. Wetherell, Ph.D.
